E Book 106

Divine words of Blessings of KAKA BHUJANDA DEVA

as appeared in His "Jeeva - Nadi" read out by GNĀNA VĀSHISTA SIKHARAM

ARULMĀ MANI SHRI R V RAMANI GURUJI, No.18, Alamelupuram, salaiyoor P. O. (Ph: 2355595) for Wing Comm: Sashikanath Oak on date Most probably in the month of 26 Jan 1995. (Thursday - morning) - The gist of the reading translated in 'English with the Blessings of Kaka Bhujanda Ramanigi, by one of his disciples: After invoking Goddess Rajarajeswari & Lord Parmasiva Right' under la splendid, scintillating moon-beam | Vision of Uma Maheswari, the great seers, sidhas, sages and other saintly beings of high spiritual order purposefully Congregated here and now, want me to speak to you, so that the blessed Vibrations of there words could ward-off the Calamities, evils, adversities and sufferings

of Worldly human beings assembled here now on this day

Today, being a Thursday, falling on the growing phase of the moon, Divine Mother Uma with immense delight and joy blesses Every living being assembled here today. All those who gathered today shall only experience all contentments, with Her divine grace, but never failures, sufferings, and discontentments in life. This is a day Synonymous to the GURU, particularly significant as it falls on the growing phase of the moon. There are people who haul, swank and boast that man could even land-

upon the moon and witnessed it close-by. They fail to realise the greatness of sages who always treat and deal with the moon. reverently as a wide sphere of worship of line Divine Mother. The glance and vision of great sages flash, emit and pour out the cool splendour and Bright radiance of the moon, even while they spell out their compassionate words of blessings through "NADI to the benefit of human beings _ Although the people run after to the sages to hear their words of blessings through 'NADI' from one place to another, amongst them, there are people who condemn and speak ill of it also. With disrespect, disapproval and ridicule they treat it like any cheap consumer goods they buy from markets. Although such crooked, mean-minded people of the lowest rank are

destined to amass currency and count it over and over again for their own temporary pleasures, they often mislead and deceive people in their sufferings and adversities in life, in the name of PARIHARAMS (corrective stops and counter aids to do-away with the calamities). For attaining even better prospects in life, such crooked and mean-minded people also run here and there to hear the words of sages through 'NADI'. They later on turn critical and enter into loose talks of disapproval of the words of sages. It is the Divine Will of 'Uma' that the glance and vision of all

blessed songs should always flash, emit, spread the scintillating brilliance of the Sun and the cool radiance of the moon, through their blessed eyes. Hence, great sages always spell out their words of blessings with such

spotless, unstained and immaculate brilliance and radiance in their eyes. Will such blemish less words ever go ineffective, Invalid or incompetent? Even if such services. of rendering the Divine words of blessings of

Sages through a Nadi is destined as a means to earn money for the livelihood of the line reader, how come, blessed words of sages concerned ever go in valid and ineffective? 'The divine sound vibrations arising from it shall reach deep within and ward-off bad influences and events in life of all those who hear these words of sages and get themselves attuned to it, at least for a few moments. This invariably happens as preconceived and ordained by the Divine Mother. Will Her compassionate blessings shall ever go amiss and invalid at any time?

Absolutely prompted and aided by the immaculate Cool and brilliant vision of 'Uma", I see you all those who are congregated here to-day. A blessed life path will be shown to you and family, apart from making you "CHINMAYA ANANDA" (super. consciousness) surprisingly with much ease. My blessings shall ever be with you in life by making you contented in all respects with the unstained, absolute and total blessings and spiritual strength of the Divine Mother and Lord Ganapathi.

You shall hence forth experience to receive with great joy the full blessings of the Mother of Wisdom and Speech (MAHA SARASWATHY) and the Mother of Riches (MAHA LAKSHMI). These blessed words shall ward-off all evils, calamities, adversities and sufferings in a moments

time, says the Supreme Mother Trinity, Rajarajeswari, Blessed sounds present here, treat and realise this day as a significant one in their life, being fortunate enough to hear these words. On this Guru's day while moon remains in Her growing phase. Dear worldly human beings as per the favourable planetary positions for day these words of blessings shall set right all your mental imbalances and distractions. The dice thrown this day being No. 8, signifies longevity of life apart from gaining knowledge

of the "SELF! With the divine - words of her 'GURU'. I talk to you to day with such wholesome signs of good omens....... (Kaka Bhunjanda Ramani, his blessed words invites selected disciples, including Mr &

Mrs Oak to receive the "Kumkum" appeared on the sacred palm leaves).

(Symbolic presentation here)

The the person concerned who has thrown the dice no 8 shall hence for the experience - Contentment of Atma (self). He belongs to Govt. service connected with air-travel. To earn the lively hood he travels in the air, but after landing up on the earth, he is in a mood of argument.

The theme and contents of these words comes to you from deep within an elated Atma which is as serene and blemish less as a fresh lotus flower, surcharged with Divine Blessings, the eyes of whom emitting divine vision.

Great sages fruitfully spent their earthly life these days with their eyes emitting divine vision of motherly love and compassion to all mentally conceiving, practising and protecting Dharma always. They freely moved around air and space by their mere thought-force, born out of Divine Will. They got themselves attuned to lure Divine Self-consciousness, prompted and ever guided by the radiance and brilliance of Lord Siva, even while remaining on the Wheel of Atma, experiencing and realising it's ecstatic pleasure and joy. Restricting themselves The Velocity of their nasal breathing at 60,000 with the aid and grace of the Divine Mother, they probed deep into many significant future events of those who are destined is take birth on the earth during Kali Yuga. These were recorded and

preserved Chapter-by-chapter. (Kandams after Kandams) who knows the great services ever rendered by Sages by repeatedly predicting such significant events in the life of earthly beings from time immemorial.

Hear me my son! With a firm desire to know the contents of such NADIs of sages, you have been visiting one place after another, and heard many Nadis. To suit your own impressions and theories, you made many hasty, and erring comments in a perplexed state of mind. Without realising whether the Nadis contain truth / words of the Divine or not, people make hasty comments that those are only money making devices, by getting perplexed and confused by themselves, thereby misleading others also, who come across such comments. You saw

KAUSIKAN'S Heard AGATIYAR'S. you also heard BRIGU's, apart from that of SUKHER'S. You repeatedly heard AGATHIYAR's and NANDIS. Although the Nadis were heard, you hardly got attuned to it. You hardly knew whether those denote truth or not. Hence, you should understand the fact that NADI SASTRA, in general predict sufficiently in advance the evils and calamities in the worldly life, to make the path of life smoother.

These words of BHUJANDA shall set right by itself, all calamities, and evils in life removes all hesitations and perplexities of the mind which paves the right way to gain all good experiences in life. For a while, let me tell you the instance when UMA & MAHESWARA Vouchsafed these words in the early periods of time. They ordained

that it is BHUJANDA's words of Blessings which shall ever remains potent, always to set right all adversities and calamities of earthly beings in this kaliyuga.

...you, the one who threw threw dice no 8 Was a disciple of a virtuous saint, in your earlier birth. But, you were hesitant to realise and believe this greatness and wisdom. Suddenly in a moment's time, carried away by your shadow of doubts and disbelief, you have dishoured finding faults with him, suspecting his spiritual powers and credentials. Since you have been harbouring in your mind disbelief and distrust carried away by undue suspicions and doubts in the earlier birth, you continue to nurture such a state of mind in this birth also, although you were having an inner urge to experience spiritual miracles and

truth, which are always beyond any explanations. Although the saint used to insult you by his words, it was with a only little harm to himself as it was born out of his hatred and enmity on the sudden undesirable change of attitude noticed in you. Hence, the magnitude of sin earned by him was quite insignificant in comparison to what you have earned.

A person who harbour in his mind doubt, suspicion and disbelief with a narrow and blemished blackish-mind, who lives in a fool's paradise, and speak, or write many a things falling quite beyond his comprehension is a sinner of a very high degree and magnitude. You should understand the fact that such a person's crime is quite far dreadful than that of a murderer!!

Such an undesirable state of mind falling a prey to doubt and suspension is still being entertained by you in this birth also. As I could realise and appreciate be greatness high virtue and immaculate Wisdom of the sages and saints through the compassionate Divine brilliance and radiance of SAKTHI. I am giving out these words of blessings to you on this a specified auspicious day, so that there words shall enable you to curtail negative tendencies and earn positive Mental perceptions in the future days ahead, Let me now deal with a little about the basics - and great significance of Nadi sastra to you.

Saints and sages by their ardent spiritual practices are able to maintain their rate of nasal breath beyond 60,000 cycles. Thereby, they awaken their inner light at their

spiritual will in aid of the broad spectrum of brilliance and radiance of the divine mother. Their inner can take a flight in the air and astral planes, holding hands-in-hands with the God of time. This flight takes a spiral course of a very high Velocity and revolution through air or astral planes! They can also gain entry into the free space cavities of the womb of a prospective mother in her stages of pregnancy. While imparting all good blessings for all good events to take place to the mother as well as to the new-born offspring the sages are able to perceive the very purpose for which the on going birth of the Atman takes place. Sages can therefore probe into and gain everything,quite before-hand long before the event of the birth of an Atma on the earth. Thus they are able to apply and a high

degree of Wisdom pertaining all about the future events and the very purpose for which the Atma takes birth. They impart his advance information even to the God of creation Lord Brahma, Such is the greatness of sages. A sastra which is born out of her application of such a high degree of Divine Wisdom, which is quite far beyond the imagination and comprehension of man, is NADI SASTRA.

I, Kaka Bhujanda surpassing many many total and absolute cosmic destructions of the Universe, guide, lead, and impart a proper life-path not only to mortals and their near and dear, but also to immortals, right from the re-emergence of the Universe after every cosmic demolition, during every kalpkāla. I get myself attend to them not only spiritually within, but also physically in

their worldly affairs, with love, affection, regards and attachment ever remaining fondly

Conscious and aware of their past, present and future course of life and purpose for which births are taken. As a mortal being on earth when the Atma gets ripened enough to realise the purpose of life for themselves within, they will be drawn towards me to hear these words of blessings thru NADI, as ordained by Lord Paramasiva in line ancient period of time. Hence, you may all understand the great significance of these words. Although Nadis are many the Sastra is quite unique and greatly by itself.

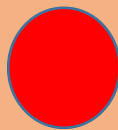

Now that the dice thrown day you being 8 due to your accrued past good deeds in previous births I shall pave you the way to

attain self-illuminations.While enabling you to enjoy a long and contented life in this birth. You may think in praise, for awhile, the Great Compassion of the Divine Mother who showered Her blessings enabling you is became instrumental for impartng to people similar to those who are assembled here, the greatness to virtues of sages. All though the sages ever remain potentially within the Jeevathma of those who hear their words in self attainment high esteem, and trust. It is futile to enter into arguments with them harbouring doubles and disbelief. There are people who are aware, and know not what they are doing when they decisive people and mislead the them rendering faulty Service; by receiving rewards of money for the same in the name of Nadi-sastra. There are people who are aware of the

consequences of such disservices, and pretend to be unaware of it. Is it good as pay attention to those who instil in others a sense of double and disbelief and meditate upon it unwisely? There are many versions about the state of happiness, and comfort. To some it is out of sole refuge under material things. To same others it is considered as he experience while crossing over due ocean of births and deaths. While a few are destined to attain it, they always remain meditated upon Me who'll be always one within themselves in the midst of the occan.

For some happiness is in this material world only. for some others, in happiness to comfort is a e state of mind within themselves, and get contented in Bliss or Ananda. They shall remain happy if they

follow the path deviced and lead for them. They'll realise that they follow the right path. these words are of the Divine Mother, who takes you on to such a right path of life. Hence the Mother on hearing these words, got quite delighted and offered this KUM-KUM to you now on these blessed palm leaves as a sign of her Compassionate Grace.

(Symbolic presentation here)

Here again the Red Vermilion appeared on the palm leaf which was shown to me by Guruji.

Dear Mother!! You are indeed all merciful! You are the affectionate and who shower, the super conscious joy of ecstasy! You should treat everyone as your own beloved children. Don't you know the ill feelings and

depth of sorrows of parent experience in this worldly life, when

they see their own beloved and affectionate children experiencing themselves distress trouble, sorrow and suffering, particularly where they treat their Childens' smooth course of life, as the most enriched reward of life?

Beloved Mother while many of your children ever remain in distress and suffering, will any parent on thin each do not ever remain devoid of their affectionate wish that their children should get all fame, and greatness with the help of of other fellow beings ? May I submit my prayers to you to shower your kind blessings to these parents do gain all happiness in life while, ever remaining under your grace and compassion.

"May dear Sage Kaka Bhujanda!! I shall truthfully set right all their sufferings. I shall see that they derive all happiness, contentment and peace of mind they cherish in life, by making them realise the Absolute".

She continued saying that she will ensure that prosperity and happiness of children born to those parents shall never get hampered, diluted on lessened thereby paving a proper path of life for them to achieve the same.

Buy hearing these words, the planet Guru (Jupiter) present there stood up. and craved for blessings for all those present to realise the greatness of this life, and also of their earlier births. The Great Sakti showered Her blessings to all as conceived by the planet Guru.

he person who threw the dice No 8 have the brightness of the luminous moon. (KANTA OLI in Tamil, signifying his name Shashi (Moon) KANTH) brightness while he is destined to hear the words of sages due to his previous birth's good deed. Is he destined to know and realise the significance, greatness and very basics of these words as long as he continues to remain in the shadow of doubt, uncertainty and dilemma which are in his mind frame from the past birth onwards?

I am expressing these words to you today after having realised the significance and greatness of the words of sages. As the one who surpassed TIME, this wisdom is born, our of the Grace of Lord Paramasiva who made me do keep my race of breathing, in early periods, at 60,000 and above, thereby

enabling me is probe into the future event of all mortal beings destined after gaining entry into the spaces of this wombs. I also get myself a tuned to the self illuminating Atma within by remaining with the souls. attaining the Grace of TIME-God, I continue to express these blessed words to you. Some time back, Sage Bhrugu made you to realise for a while the ecstasy and pleasure of the Divine, by making in experience many miraculous visions in many places. It has since become long forgotten experiences. There are persons out of their attempt to earn quick money, deceive, mislead.

people in the name of sages words attend such people. Can render such words only with the grace of the Divine? Whatever be the diversities and differences, they are all

Virtuous beings the one's rendering services to the humanity through the words of sages.
The person who put dice no. 8 is the one who remains in govt service wondering frequent air travel to the delight of sages. Also undertake similar flights in the subtle form. Now that the maintains a deep insight to know more and more about the word's of sages, he shall experience all the contentments in life with more greatness and fame in future, you may remain calm and patient till the month of Makaram (15.3.95 to 14.4.95). I shall make you understand and realise all paths of sages. But who is there is believe some one who expresses the fact that ascetics seers and sages

regularly congregate here to hear these words of blessings as that of Lord

Paramasiva himself which'll enable the mortals to realise spiritual contentment of the Atma?

While these words are being rendered to you, I see Lord Maheswara and Uma over hearing this with great joy and delight while Lord Nandiswara dance in ecstasy. You are all made to congregate here today born out of destiny, says Lord Nandiswara.

You may live in this Kali Yuga, with pomp and happiness experiencing all contentments in life. Although people pass through times on which they undergo mental distractions and agitations caused by blackish- minds lacking love and affection, for all those who faithfully follow the path shown shall overcome it. Thereby They experience all joys and pleasures in life through self-contentment.

Now that you put dice No 8, you shall. derive Atma-Bala (Inner strength of the Atma), by which you shall come to know of the inner-force caused to the Self, by the sages. The present Thought currents which arise in you, is more or less, with selfish motives now, those of whom in your family pass through mental agitations and anxiety, resulting in frequent set backs. I shall make you all to do-away with such disorderly tendencies of the mind, paving the way for all happy experiences in life. I shall |also set right in ill feelings and sufferings of your wife, showing you the right path to follow, in your present occupation.

Although people are lucky and blessed to hear the words of sages, a few of them think even to commit suicide, when they came across set backs in life. But, after having

trodden the path shown to them, by the sages, to cheerfully continue the life by taking right steps forward, after following these for sometime, they tend to forget the past. There are a few, who meditate on the tributes on praises also. Afar having attained happy experiences in life, some of then may give up and renounce it also. This Jivathma is the one who deserves all rich tributes and praise. The path of life is a destined one, including that of the life of a praise-worthy Jivathma. When someone who truthfully follows a clean and righteous path, as devised and shown, it causes to gain the blessings of Goddess of Wealth and riches also.

Let me again tell you the fact that I shall set-right all mental distractions and the mis-deeds carried out in your service also. You

may hence forth think of only good things to happen to you and all.

A blessed palm leaf blessing from me awaits you to be made known in the month of Makarm (ie between 15/1/95 & 14.2.95) I shall impress upon you the uniqueness and virtue of 5 Great sages, on that occasion.

All those who are made to hear there words to-day, with in kind blessings of the Goddess of Earth, shall truthfully attain all prosperity and contentments in life.

With all my joy, pleasure and delight. my blessings to you all.

NAR BHRVÉE.

Arul Koodam Puja Room

[The readng begins with the prayer of at 4.15 Guruji speaks in english]

Background Information

Ramani Guruji's Arool Koodam was situated about 5 Kms from AFStn Tambaram campus. I came to know about Guruji in one of the Naadi centers. May be around June-July 1994. When I went to his ashram for the

first time, I was in PT dress. Completely wet due to heavy rains that evening. The reading was going on. I sat on the stairs of the ashram, trying to avoid wetness of my dress to the other devotees gathered.

After the reading was over We were asked to sit in line for the *Prasad*. Some ladies quickly started to spread the Banana leaves and Imli Rice was served with some other preparation. Everyone was talking in Tamil, I could hardly grasp except I got the testy *Prasad*. Later on I started to visit frequently. But it took some time to get the first reading for me. One day Guruji asked to come on early morning . The reading went for long 45 Minutes. He spoke in English after the reading was over. He told in short what was said about me. The cassette was handed over. I could not get the translation

to know the detailed meaning. I requested to Guruji to help. He called one of this devotees , ‘Hey Thampy, come here. Translate the reading for this commander’. Thus taking the cassette from my hand, he handed over it to Mr S R Thampy. Mr. Thampy was senior Executive on Marketing Division of Indian Potash Ltd Office. He some times used to call and tell me the high lights what he had translated. On occasions he said over phone and in person, tears rolled while the words Maharishi Kak Bhujanda had divined. Regarding the vermilion appearing twice in the reading and so many deities had blessed in this reading. I used to take some time for him. Since he was not present in actual reading there were some inaccuracies in some other translation.

Later years Mr S R Thampy shifted near to Guruji's Ashram. He was fond of *Paan*. He used to warn that I should be very careful in this life to not to commit the same mistakes like previous ones. After this reading in the month of Makaram (meaning 12th Rasi and the month of Falguni) came but the translation was lost by me. In the month of Jan 1996 Tamil book was published by the hands of Pujya Ramani Guruji before leaving on posting to Srinagar. 18th June 1995 reading translation is published in other E-Book No 104.
